Hello! My name is Christina

I'm from Athens and I'm studying physics. I had my Erasmus+ exchange at the university of Zielona Góra. The professors were very helpful and I had the chance to improve my skills in many ways. I feel very lucky I had been a part of this unforgettable experience.

# International Students

Hey! My name is Laura.

I am from Badajoz (Spain). This year (2016/17) I am studying physics at the University of Zielona Góra as Erasmus student.

I am very glad to have the opportunity to enhance my skills and learn a lot about the culture of the different countries.

"Hi there! My name is Joaquín!

I am from Cáceres (Spain) and I had the pleasure to be part of Erasmus+ Programme as a Physics student at Uniwersytet Zielonogórski in 2015/2016. Without a doubt it has been the best decision I made in my life so far. People, international atmosphere and new experiences really blew my mind. Part of me is still there!

Hello, My name is Du San.

I am from Viet Nam. Last year (2015/2016), I spent in Poland participating in Erasmus+ Programme. I studied Physics at the University of Zielona Góra.

This programme has given me valuable skills, contacts and knowledge. It was a great experience

Hey! My name is Stefanos and I am from Greece.

My experience of studying at University of Zielona Gora was amazing. As an Erasmus student I had the opportunity to learn physics in an international environment, visit other countries, make friends for a lifetime, improve my language skills and generally experience moments that I will keep forever.

Totally recommended

Pablo from Spain.

In Zielona Góra you will find, not only the perfect Erasmus destination to travel around Europe (that's for granted, as you'll be in the center of it), but also an university where you will be able to get to know very active researchers, and collaborate with them in whatever field might suit better your intellectual tastes. Go on Erasmus, Zielona Góra is waiting for you!

Hello! I'm Cong.

I'm from Vinh City (Viet Nam). I am studying physics at the University of Zielona Góra as a Erasmus student in 2016/17.

It is a great experience to be an Erasmus+ student. I enjoy studying in international classes and participating in Zielona Góra social life.

# International Students

Hello, my name is Tinatin and I'm from Georgia.

I study physics (2016/17) at the University of Zielona Góra as an Erasmus student.

This is an incredible experience of studying with students from a lot of different countries, a great chance to learn about their culture and lifestyle. It's so amazing to make friends from all around the world, to travel, discover new things and study at the same time.

Hello, My name is Kieu.

I come from Viet Nam. I have been living and studying in Zielona Góra more than four years. I came here when I was 18 years old.

In my mind, Zielona Góra is very peaceful place with academic spirit. Most of people are friendly and it's my second homeland.

I'm studying Physics. I have a lot of friends here. I also can travel and visit various countries in Europe and get a knowledge another culture.

Hello, I am Vinh.

I am from Hong Duc University,  
Viet Nam.

It is great to be an Erasmus student. I had beautiful days when I was Erasmus student in 2015/2016. I enjoyed everything. I enjoyed Zielona Góra social life and I visited other destinations in Poland. I had a lot of interesting experience in international classes. All of them are still on my mind
